

**PROGRESS REPORT ABOUT SHEC**

The very start of any program is immersion. The result of immersion is integration with the people, thus, intensifying solidarity with them. Later on, scientific data gathering was conducted. The result of the survey states that they have so many concerns. But we started with housing then livelihood, health, education and values formation respectively. The following are the indicators of success when it comes to empowerment:   
The people are taught to start from reality by making the survey by themselves  
They are assisted to analyze the result of the survey  
They are guided to plan for their own basing on their analysis  
One of their plans was the successful formation and registration in SEC of their organization which is St. Hannibal Christian Community  
Ability to facilitate meetings even without us  
Sense of owning their organization by having the initiatives to look for ways to improve it by setting up leadership trainings  
Formation of Council of Servant leaders  
Regular average attendance of participants during weekly meetings  
Regular barangay meetings  
Organized area masses  
Active participation on committee meetings  
Compliance with some requirements such as membership fees, community mappings and submission of survey forms  
Voluntary moral support for Bro. Ranier about their plight  
Formation of different committees such as on livelihood, health, values, education, research, finance and research  
Tie up with other congregations and agencies

Personnel  
At least, each program is now taken charge of by certain persons such as: education ♦ Hernan, health ♦ Max, Values formation ♦ Ranier, Livelihood ♦ Mely, Housing ♦ Fr. Dexter. However, all of the programs are under the supervision of Fr. Dexter.  
There is an increasing number of volunteers especially in education  
Commitment to work for the mission of SHEC is more intense on the part of the personnel due to constant moments of prayer during masses and meditations

Finance  
The average amount of expenses is becoming stable. For a month, almost P80,000 is the regular expenses. However, there is also a gradual increase of sponsors and donors for the programs of SHEC especially on scholarship  
Registration of SHEC in SEC  
SHEC was registered in Securities and Exchange Commission last July 28, 2005. This makes it easier to relate with other funding agencies.  
Advocacy  
SHEC uses several ways to promote her spirit. First, living out the causes of SHEC. This has inspired people who are coming over to SHEC. Secondly, sharing by teaching the biblical and charismatic foundations of SHEC to Religious Brothers, Rogationist novices, Aspirants of the Daughters of Divine Zeal, volunteers has made SHEC attractive as a way of finding fulfillment in life.

**RECOMMENDATIONS/SUGGESTIONS**

1. Shared Financial Assistance for the purchase of BPI Lot which is P27M and for livelihood program (RCJ ♦ 11M, DDZ ♦ 11M, SHEC 11M)  
2. Awareness of the spirit of SHEC by integrating it in the formative years according to the level of formation  
3. Regularization of Mely Nadunop as an employee of SHEC  
4. Fixing of the bank accounts such signatories and renaming of account names and consolidation of the two peso accounts  
5. Formal settlement of the status of Max, Hernan and Ranier in order to give what is proper to them.  
6. Possibility of borrowing a car on Tuesdays for our meditation

---

**SHEC Personnel**

Fr. Dexter M. Prudenciano

While preparing for

his ordination to the priesthood, he was finishing his course in Bachelor of Science in Social Work. Right after graduation, he was asked to prepare for the establishment of SHEC. At the first year of setting up of SHEC, he finished his degree in ♦ Masters of Arts in Theology. At present, he is in his full-time work of empowering around 2000 informal settlers of the six barangays of Pasay City.

Bro. Rainier Torres

In agreement with the Major Superior, Rainier is in the process of intensive discernment. He found SHEC to be the best place for him to process himself. While in SHEC, he is in charge of the value formation of the members of ♦ St. Hannibal Christian Community. Initially, he is expressing his desire to continue his studies in Don Bosco by next school year while staying in SHEC.

Hernan Recinto

He left the Rogationist Novitiate some time in November (2004) last year due to certain personal reasons. With certain arrangement with Fr. Bruno, he wanted to express his desire to go back. In search of a community, he found SHEC to be the place for him to continue his discernment. He came over to SHEC last June 2005. Right now, he is in charge of educational and scholarship programs of SHEC.

Max Geli

He was a former Rogationist Senior Seminarian. After one and a half years of staying in Green Court, where the formation was first held, he went outside to finish his studies. When SHEC was just starting, he came to know about it. He came over and expressed his desire to go back because he was attracted to the kind of apostolate that the Rogationists have at present. That was in May 2004. ♦ While staying longer in SHEC, Fr. Bruno arranged with Fr. Dexter that he has to finish his course on Economics in almost two years. After that, he has to go to Calcutta to pursue his postulancy together with the other senior seminarians. Right now, he is assisting in the Health Program.

Mely Nadunop

She is from Baguio City. She finished her bachelor ♦s and master ♦s degrees in economics in Baguio City. She has also further studies in Germany in relation to her course. After her studies, she worked in National Economic Development Authority (NEDA) for almost ten years in technical positions as economic development specialist. After which, she worked also in other agencies with almost the same line of work. To further on her knowledge, last year she took up Bachelor of Science in Social Work in Asian Social Institute. While studying, she came to know SHEC and was attracted to the work. After graduation, she came over ♦ and expressed her desire to work as a full-time collaborator. She started just last June 2005. She is now in charge of the livelihood program.

Volunteers

- Housing/Community Organizing

- ♦
- ♦
- Ms. Lita Nero ♦ Executive Director of Foundation for Development Alternatives (FDA)
- Mr. & Mrs. Lary Famadico ♦ Employees of FDA & Habitat
- Habitat for Humanity Personnel
